### NOTES TO ABOVE

All the above expenditure was made to adults and children within our Parish area.

The wider school aid program for the Region provided \$71,400 to 23 schools to assist 783 children for costs such as food (breakfast clubs), uniforms and shoes, text books, excursions, courses, etc.

Home visitation numbers decreased as result of Covid and also income increases due to higher Centrelink benefits and lump sum payments. Home visitation requests are returning to pre-Covid numbers as Centrelink benefits reduce.
